

Number 24-003802-PR01 (NW-H01-07-en-01)

Owner Glas Trösch AG
Industriestr. 29
4922 Bützberg
Switzerland

Product Software for calculating the spectrophotometric and thermal characteristics of glass products

Designation **Glas Trösch glaCE**

Details Programme version 5.02

Special features -/-

Result

Validation of calculation software according to EN 17871:2024-04

The compliant calculation of glass products according to EN 673:2024 is confirmed

Basis *)

EN 673:2024-11

EN 17871:2024-08

*) and corresponding national versions
(e.g. DIN EN)

Test report: 24-003802-PR01 PB-H01-07-de-01

Instructions for use

This test report serves as proof of the evaluation of the aforementioned calculation programme in accordance with the above basis. Within the scope of CE marking, the user must control in the particular application whether there is a valid verification for the basic data for the thermal transmittance (e.g. test report of a notified testing body).

The user is responsible for the correctness of the data to be entered and for the calculation results obtained with it.

Validity

The data and results given relate solely to the tested/described specimen. This test/evaluation does not allow any statement to be made on further characteristics of the present structure regarding performance and quality.

Notes on publication

The ift-Guidance Sheet "Conditions and Guidance for the Use of ift Test Documents" applies.
